## 1. City Update:

### A. Alderman Theisen:

I. Hospital Parking: City will look at an East Side Corridor Parking Impact Parking Utility should be called, if there is any improper parking in the neighborhood. Tony is willing to check with Union Congregation, about parking

II. Other questions: about the grant (still coming) shared with Navarino

### B. County Supervisor Gower: Public Safety has been dealing with the 911 dispatch problems.

There have been software problems, data input delays, and lack of training and staff. Staffing issues are being resolved, but software solutions might be a year or two off. 31 out of 32 departments have come in at, or below budget.

### C. Cheryl Renier-Wigg: report by Jean. We're asked to fill out a MNLC – neighborhood issues survey.

D. Officers Hansford and Tyler: Community policing is preventative, but will also probably face budget crunches. The Astor Neighborhood has been a good, active, safe neighborhood.
